Birmingham, AL 35213

Attention Nominations Committee:

It is with great pride and respect that I submit my letter of interest for a position as Director-at-Large for the International Code Council to be elected at the Annual Conference in Minneapolis, Minnesota in September of 2008.

I have been a code official for twenty-five years and have served in a management position for the last twenty-two years. I have witnessed and participated in the positive evolution of the code enforcement profession over the course of two and a half decades. We have progressed from the days of "five years construction experience and a drivers license," to the professional certification standards of today that give code officials parity with the design professionals that we work so closely with to ensure the safety of the built environment. My entire career has been dedicated to maintaining professional standards, and my future focus is to represent the needs and wishes of the members of this organization.

Enclosed for the committee review, is a summary of my service to ICC and BOCA International, a description of my Professional memberships, and my educational and certification credentials. Also, I have included a brief resume describing my employment history, and a letter of support from my municipality.

I look forward to meeting with the Nominations committee in September in order to better expound on my qualifications and my philosophies regarding the future of the International Code Council.

Thank you for your consideration of this letter.

Sincerely,

Robert F. Loeper, Jr., M.C.P., Director
Community Development Department
